COMPANY CAPABILITY STATEMENT

Tacpro Group of Companies is a Mackay based business operating primarily in coal mining, sugar mills, the coal and sugar ports and infrastructure. Tacpro specialises in:

- Scheduled engineering maintenance and planning
- Light construction project execution
- Breakdown support
- Risk mitigation and control
- Contracts and contractor management
- Project planning and efficiency monitoring
- Labour hire
- Recruitment

The strength of Tacpro Industries is derived from the combined industry and hands-on experience of its diligent company directors, which exceeds 35 years in this region. As well as a compatible working partnership bond of 10 years that extends across multiple industry sectors.

Tacpro has the ability to meet all aspects of offsite supply requirements. With the capacity to complete inhouse quality fabrication, mechanical overhauls, preassemblies, and blasting and painting - all at the conveniently located Tacpro workshop in Pleystowe. In addition to this, an affiliation with quality Mackay-based engineering design, and drafting companies, as well as civil and Earth moving subcontractors, means that Tacpro is able to meet the needs of a broad range of industry demands.

Tacpro is proud of its proactive approach and commitment to achieving its client's asset maintenance and management goals, in a safe and efficient manner first time, every time.

The ongoing success of Tacpro stems from unwaivering commitment to the company's core values:

- Zero compromise on safety
- Constant commitment to always meeting client's wishes
- Clear and open communications
- Walk the walk, not talk the talk
- Always put people before profit

Major project works undertaken thus far include:

- HAZOP's procedure and Maintainability Study audit
- Field Leadership and site Project Management
- TLO and ROM bin relines
- ROM Chain Feeder O/haul
- TLO Lower cone replacement
- Riddlings Hopper fabrication and fitment.
- Multiple Scour Valve Upgrades on Water Supply Pipeline
- Capability to design, fabricate, NDT, Blast and Paint as a One-stop-shop.
